Armey, Oxley, Baker to Hold News Conference after House Vote on Terrorism Risk Protection Act

House Financial Services Chairman Michael G. Oxley will be joined by House Majority Leader Richard K. Armey and House Capital Markets Subcommittee Chairman Richard H. Baker for a news conference this afternoon following the House of Representatives vote on H.R. 3210, the Terrorism Risk Protection Act.

The news conference, to be held in the House of Representatives Radio/TV Gallery (H321), will begin following the floor vote. Additional Members of Congress involved with the bill are also expected to attend.

The Terrorism Risk Protection Act, introduced earlier this month by Chairman Oxley, Subcommittee Chairman Baker and cosponsored by 34 Members of Congress, addresses the pending insurance problem while protecting taxpayers, policyholders and insurers.
